Observatory visiting rules

- To strictly maintain applicable visit and safety rules, following the instructions provided by the Observatory staff
- To refrain from touching the telescope lenses
- In case of visual issues (post-operational period, wearing optics, astigmatism, etc), advise the staff on the issue before the start of planets viewing. It is also recommended to wear the glasses if you have visual issue and wearing optics in a daily life
- In case of any damage to the internal area of Observatory and/or its equipments, the visitor is obliged to compensate it before leaving the hotel
- In case of a child visit, the accompanying person/parent is responsible to assure the duly implementation of the instructions and maintenance of rules
